SUMMARY

Frontend Developer with 2+ years of experience building web applications with React, Next.js, TypeScript and Laravel, backed by a solid UX/UI foundation. I founded ula studio, where I built the frontend of a medical platform in production for a clinic in Spain, with ongoing maintenance, and designed and built unda, my own scheduling SaaS, full stack with Next.js, Prisma and MySQL. Looking for a remote Frontend or Full Stack (Next.js) role.

EXPERIENCE

Frontend Developer · Founder — ula studio

May 2025 — Present

Independent design & development studio · somosulastudio.com

- Built the entire frontend of a medical studies platform for a clinic in Spain with Laravel, Livewire and Tailwind CSS, working with a backend developer and contributing to the database and server-side logic. In production since May 2025, with ongoing maintenance.
- Designed and built unda (agendaunda.com) full stack, a scheduling SaaS for professionals: own REST API, data modeling with Prisma and MySQL, session-based authentication and Zod validation. Live, in beta.
- Designed the multi-role UX/UI of a medical appointment platform and built its frontend with Next.js and TypeScript, consuming an external REST API with JWT auth in httpOnly cookies.
- Designed and built websites and landing pages for clients in Argentina and Spain with Next.js, Tailwind CSS and Figma.

Frontend Developer — VALIDA

May 2024 — June 2026

- Developed and maintained web interfaces for internal systems with Laravel, Livewire and Tailwind CSS.
- Implemented reusable components and UX/UI and accessibility (WCAG) improvements following frontend best practices.
- Collaborated on the evolution of the user experience, technical SEO and interface design.
