PROFILE

With 2+ years of experience, I build modern, accessible, and maintainable web interfaces, turning designs into clear, fast, and easy-to-use experiences.

My approach combines frontend development and UX/UI to create products where design, accessibility, and code work together.

I work mainly with React, Next.js, and Laravel, always aiming to build scalable solutions centered on the needs of the people who use them.

EXPERIENCE

Frontend Developer

May 2024 – June 2026

SOCIALNET

Development and maintenance of web interfaces for internal systems using Laravel. Involved in building reusable components, improving UX/UI, and optimizing accessibility following frontend development best practices. Collaboration on the evolution of the user experience, technical SEO, and interface design.
