SUMMARY

Full Stack Developer with a strong frontend and UX/UI foundation and 2+ years of experience building web applications with React, Next.js, TypeScript and Laravel. At VALIDA I built and maintained internal systems as part of a Scrum team. As a freelancer I built the frontend of a private medical platform for a healthcare client in Spain, in production with ongoing maintenance, and designed and built unda, my own scheduling SaaS, full stack with Next.js, Prisma and PostgreSQL.

EXPERIENCE

Full Stack Developer · Freelance

May 2025 – Present

Client projects and own products · since September 2026 under my studio ula studio (somosulastudio.com)

- Developed a private internal medical management platform for a healthcare client in Spain with Laravel and Livewire: the entire frontend plus contributions to the database and backend, alongside a backend developer. In production since July 2025, with ongoing maintenance.
- Designed and built unda (agendaunda.com) full stack, a scheduling SaaS: own REST API with Next.js, Prisma and PostgreSQL, session-based authentication and Zod validation. Live, in beta.
- Designed and built websites and landing pages, plus the UX/UI and frontend of a multi-role appointment platform, with Next.js, TypeScript and Figma.

Technologies: Next.js · React · TypeScript · REST API · Prisma · PostgreSQL · Laravel · Livewire · Tailwind CSS · Figma · UX/UI

Frontend Developer — VALIDA

May 2024 – June 2026

- Developed and maintained interfaces for internal systems with Laravel, Livewire and Tailwind CSS, building reusable components and UX/UI and accessibility (WCAG) improvements.
- Worked in an agile Scrum team (sprints, dailies, planning and retrospectives), managing tasks in Jira.
- Applied version control with Git and GitLab: branches, merge requests and code review.
- Collaborated with backend, design and QA team members.
- Contributed to technical SEO and the evolution of interface design.

Technologies: Laravel · Livewire · JavaScript · Tailwind CSS · Bootstrap · Sass · Git · GitLab · Jira · Scrum · UX/UI · Web Accessibility (WCAG) · Figma

PROJECTS

Medical Studies Management Platform · Client: healthcare · Spain · In production · Ongoing maintenance
Laravel · Livewire · Tailwind CSS · JavaScript · Alpine.js

unda — Scheduling for professionals · SaaS · Own product · Live · Beta

Next.js · TypeScript · Prisma · PostgreSQL · Session auth · Zod · Tailwind CSS · shadcn/ui · Figma — agendaunda.com

Medical Appointment Management Platform · In development · Multi-role

Next.js · TypeScript · REST API Consumption · JWT auth in httpOnly cookies · Figma

Websites & landing pages — [Jori Armonía Yoga](#) · [Las Coquettes](#) · [Juliana Re](#) · [Sofía Capuano](#)

SKILLS

Frontend: HTML · CSS · JavaScript · TypeScript · React · Next.js · Tailwind CSS · shadcn/ui · React Hook Form · Sass · Bootstrap · Alpine.js

Backend: Node.js (Next.js API Routes) · REST API · Prisma · PostgreSQL · MySQL · Authentication (sessions / JWT) · Zod · Laravel · PHP · Livewire

Design / UX: UX/UI · Figma · Design Systems · Web Accessibility (WCAG) · Photoshop

Tools & methodologies: Git · GitHub · GitLab · Jira · Vercel · Docker · Postman · Slack · Claude Code · Scrum · Agile methodologies · Code review
